Meet Me in Atlantis Mark Adams, 2015-03-10 The New York Times Bestselling Travel Memoir! The author of Turn Right at Machu Picchu travels the globe in search of the world's most famous lost city. "Adventurous, inquisitive and mirthful, Mark Adams gamely sifts through the eons of rumor, science, and lore to find a place that, in the end, seems startlingly real indeed."—Hampton Sides A few years ago, Mark Adams made a strange discovery: Far from alien conspiracy theories and other pop culture myths, everything we know about the legendary lost city of Atlantis comes from the work of one man, the Greek philosopher Plato. Stranger still: Adams learned there is an entire global sub-culture of amateur explorers who are still actively and obsessively searching for this sunken city, based entirely on Plato's detailed clues. What Adams didn't realize was that Atlantis is kind of like a virus—and he'd been exposed. In *Meet Me in Atlantis*, Adams racks up frequent-flier miles tracking down these Atlantis obsessives, trying to determine why they believe it's possible to find the world's most famous lost city—and whether any of their theories could prove or disprove its existence. The result is a classic quest that takes readers to fascinating locations to meet irresistible characters; and a deep, often humorous look at the human longing to rediscover a lost world.

Atlantis David Gibbins, 2006-09-26 BONUS: This edition contains an excerpt from David Gibbins's *The Mask of Troy*. From an extraordinary discovery in a remote desert oasis to a desperate race against time in the ocean depths, a team of

But neither of them could have imagined what awaits them in the murky depths. Not only a shocking truth about a lost world, but an explosive secret that could have devastating consequences today. Jack is determined to stop the legacy of Atlantis from falling into the wrong hands, whatever the cost. But first he must do battle to prevent a global catastrophe.

Heart of Atlantis Alyssa Day, 2012 As a war wages between the immortals of Atlantis and those of the vampire realm, a Poseidon warrior fights to save his world--and the woman he loves. And no risk is too great. The desires of a high priest. Alaric, Poseidon's High Priest, has made a vow to Quinn, the woman he loves and the leader of the Resistance: to save her friend Jack before his last bit of humanity has been drained. Should Alaric succeed, there's one intimate danger: he may lose Quinn to the love of the man whose life he saved. But damn Atlantis to the nine hells, he's willing to put Quinn's wishes first, regardless of the consequences. The warning of a threat reborn. The final jewel of Poseidon's trident has turned up in the hands of mysterious Ptolemy Reborn, who claims to be descended from Atlantean royalty. He's about to reveal to the world that Atlantis is real, positioning himself as king. But this magical terrorist is bent on chaos. The only warrior who can stop him is following his own path, driven by the even more powerful force of love. Atlantean powers over the sea could prove just as cataclysmic--for Quinn's love, Alaric might drown the entire world.

What he doesn't know is that Jewel is a woman, not a stone! But once he meets this precious gem, destroying her is the last thing on his mind.... Jewel, part goddess, part prophet, is a pawn in Atlantis's constant power struggles. She needs Gray's help to win freedom and uncover the secrets of her mysterious origins. Gray needs her wisdom to

Atlantis John Michael Greer,2007 Traces the legend of Atlantis from the original stories found in the works of Plato to the latest scientific debates and discoveries, and argues that the threat of global warming may lead modern society to the same fate.

Atlantis and the Silver City Peter Daughtrey,2013-03-05 Delve into an ancient mystery and witness the unveiling of the most complete and persuasive evidence for the real location of the lost empire of Atlantis. More than two thousand years ago, Plato laid out a series of cryptic clues about the location of Atlantis. Since then, countless experts have tried to crack his code. Today, some experts claim Atlantis lies under the volcanic rocks of Santorini. Others place it in the Bermuda Triangle or off the coast of Africa or say it vanished forever beneath the waves of the Atlantic Ocean. But what if Atlantis is closer than we think? What if we could walk the streets of its ancient capital today? After a twenty-year forensic examination of Plato's writings, Peter Daughtrey believes we can do just that. Having matched an unprecedented number of Plato's clues to a modern locale, Daughtrey pinpoints the exact location of the once-glittering capital city of Atlantis and outlines the full reach of the empire. Daughtrey's quest takes him from the dusty stone quarries of Portugal and the hieroglyphs of Egyptian temples to the newly refurbished museums of Baghdad. Along the way, he unearths long-forgotten, vitally significant artifacts, pieces together sensational evidence of a lost alphabet, and identifies today's descendants of this early civilization—and even reveals the location of another undersea settlement from the empire of Atlantis. Hailed as “an intriguing, thought-provoking read” by Graham Hancock, the bestselling author of Fingerprints of the Gods, Atlantis and the Silver City is a detailed and accurate account of an adventurous journey of discovery, told with enthusiasm and verve.

Unearthing Atlantis: Charles R. Pellegrino,2001-07-03 Illustrated history of Thera Islands of Greece, the Minoan civilization and the fabled land of Atlantis.

Atlantis Christos A. Djonis,2021-06-11 Never before has there been a real discovery where all the physical characteristics of a proposed location matched Plato's description of Atlantis. Not even the original Santorini hypothesis could sufficiently meet the given criteria. After years of extensive research, in conjunction with new archeological evidence, and with the aid of satellite technology, Christos A. Djonis credibly reveals that Plato based his story of Atlantis on a real prehistoric setting, now beneath 400 feet of water. We now have a real discovery where all the physical characteristics, along with Plato's given chronology, flawlessly match, and they are precisely in the exact order as Plato depicted. Moreover, DNA and archaeological evidence of an advanced Neolithic civilization occupying the prehistoric submerged island, at around 9600 BC, further confirm a perfect case scenario. “Finally, a study that gives a logical and well-supported documentation for the existence of Plato's Atlantis! I was totally enthralled with this exciting piece of history...” C.A Schultz, Schultz Studios

Discovery of Atlantis Robert Sarmast, 2004 Plato provided 53 physical clues in his famous dialogue *Critias* -- the original account of the story of Atlantis that is the sole basis of all Atlantis research. The book proves that the island of Cyprus and the underwater landscape just south of Cyprus is a perfect match with 51 of these clues. Exclusive 3D bathymetric maps based on new scientific data show for the first time a stretch of sunken land off of Cyprus. The general layout of the landscape of Atlantis as described by Plato is easily discernible on this underwater land mass, as well as the precise location of its capital-Atlantis City. This robust empirical data is joined with other original findings based on mythological analysis and historical research, making the case for Cyprus increasingly obvious. With this compelling new interpretation of Plato, author Robert Sarmast brings the legendary island of Atlantis alive for the first time. With the location so clearly mapped in this book, the next step in this exciting research is an expedition to the region. Humankind may soon witness the filming of the

colossal ruins of this once-mighty empire and proceed to resurrect Atlantis from its watery tomb!

Edgar Cayce's Atlantis Gregory L. Little, Lora Little, John Van Auken, 2006-02 From the ancient Akashic Records, renowned psychic Edgar Cayce gives an amazingly detailed and fascinating vision into the legendary world of Atlantis and its extraordinary people. The section on the people and places of Atlantis is exclusive to Cayce's visions into this celebrated paradise. Cayce's readings describe the powerful crystal; the flying machines that could soar through the air, under water, and out into space; the energy generators that harnessed the sun's rays and channeled them into building a magnificent country of luxury, wealth, and peace. Cayce's discourses describe how the Atlanteans rejuvenated their bodies regularly, allowing them to live hundreds of years longer than we do today. But he also tells of how this great culture fell from grace and power, destroying itself and its continent in the process. In a strangely prophetic discourse, Cayce says that many ancient Atlanteans are reincarnating in the world today, bringing with them both the good and evil of that ancient land. Drs. Gregory and Lora Little, and John Van Auken present this story in an absorbing narrative of the legends of Atlantis and the latest discoveries in the ongoing search for remnants of the lost continent. The book contains over a hundred illustrations--some never published before. Included in the story of Atlantis are vignettes of the forgotten lands of Mu and Lemuria, the legend of Lilith and Amilius, Plato's history, and strange creatures of Atlantean lore. This book includes a complete description of and update on the three Atlantean record caches that Edgar Cayce identified and the modern-day explorations seeking to find these lost halls of the ancient records.--Back cover.

The Lost Empire of Atlantis Gavin Menzies, 2011-11-08 "MENZIES [IS] PROPOUNDING ONE OF THE MOST REVOLUTIONARY IDEAS IN THE HISTORY OF HISTORY." —New York Times Magazine New York Times bestselling historian Gavin Menzies presents newly uncovered evidence revealing, conclusively, that "the lost city of Atlantis" was not only real but also at the heart of a highly advanced global empire that reached the shores of America before being violently wiped from the earth. For three millennia, the legend of Atlantis has gripped the imaginations of explorers, philosophers, occultists, treasure hunters, historians, and archaeologists. Until now, it has remained shrouded in myth. Yet, like ancient Troy, is it possible that this fabled city actually existed? If so, what happened to it and what are its secrets? The fascinating reality of Atlantis's epic glory and destruction are uncovered, finally, in these pages in thrilling detail by the iconoclastic historian Gavin Menzies—father of some of "the most revolutionary ideas in the history of history" (New York Times). Meticulously analyzing exciting new geologic research, recently unearthed archaeological artifacts, and cutting-edge DNA evidence, Menzies has made a jaw-dropping discovery: Atlantis truly did exist, and was part of the incredibly advanced Minoan civilization that extended from its Mediterranean base to England, India, and even America. In *The Lost Empire of Atlantis*, he constructs a vivid portrait of this legendary civilization and shares his remarkable findings. As riveting as an Indiana Jones adventure, *The Lost Empire of Atlantis* is a revolutionary work of popular history that will forever change our

understanding of the past.
