

# One World Divisible A Global History Since 1945

**Daniel J. Sargent**

One World Divisible David Reynolds, 2000 A new volume in the Global Century series, this masterful history of the world in our time captures the ground-level drama of events and the larger contours of change during a period of global transformation.

**Global Century Series One World Divisible** David Reynolds, 2001-03-06 A magisterial account of our time by a distinguished historian.--Walter LaFeber, author of *The Clash*. This brilliant history vividly captures the great political events of the past 50 years while carefully avoiding an encyclopedia approach. of illustrations.

**One World Divisible** David Reynolds, 2000

**One World Divisible** David Reynolds, 2000 The second half of the 20th century was dominated by the unfolding drama of the Cold War, from the Berlin blockade to the fall of the Berlin Wall. A blooming economy has had its sinister shadow in the apparently insoluble crises that have beset much of the Third World. Above all, peace in the West has been offset by wars of unbelievable murderousness elsewhere. Reynolds's account is both an overview of the trends underlying this spectacular and awful variety, and an insight into the lives led in its midst.

From Munich to Pearl Harbor David Reynolds, 2002-08-05 A master historian's provocative new interpretation of FDR's role in the coming of World War II. Brilliant. —Arthur M. Schlesinger, Jr. *American Ways Series*.

**The Emergence of Globalism** Or Rosenboim, 2019-03-19 How competing visions of world order in the 1940s gave rise to the modern concept of globalism During and after the Second World War, public intellectuals in Britain and the United States grappled with concerns about the future of democracy, the prospects of liberty, and the decline of the imperial system. Without using the term globalization, they identified a shift toward technological, economic, cultural, and political interconnectedness and developed a globalist ideology to reflect this new postwar reality. *The Emergence of Globalism* examines the competing visions of world order that shaped these debates and led to the development of globalism as a modern political concept. Shedding critical light on this neglected chapter in the history of political thought, Or Rosenboim describes how a transnational network of globalist thinkers emerged from the traumas of war and expatriation in the 1940s and how their ideas drew widely from political philosophy, geopolitics, economics, imperial thought, constitutional law, theology, and philosophy of science. She presents compelling portraits of Raymond Aron, Owen Lattimore, Lionel Robbins,

Barbara Wootton, Friedrich Hayek, Lionel Curtis, Richard McKeon, Michael Polanyi, Lewis Mumford, Jacques Maritain, Reinhold Niebuhr, H. G. Wells, and others. Rosenboim shows how the globalist debate they embarked on sought to balance the tensions between a growing recognition of pluralism on the one hand and an appreciation of the unity of humankind on the other. An engaging look at the ideas that have shaped today's world, *The Emergence of Globalism* is a major work of intellectual history that is certain to fundamentally transform our understanding of the globalist ideal and its origins.

**One World, Big Screen** M. Todd Bennett, 2012 World War II coincided with cinema's golden age. Movies now considered classics were created at a time when all sides in the war were coming to realize the great power of popular films to motivate the masses. Through multinational research, *One World*,

**Mao: A Biography** Ross Terrill, 1999 Everyone who came in close contact with Mao was taken aback at the anarchy of his personal ways. He ate idiosyncratically. He became increasingly sexually promiscuous as he aged. He would stay up much of the night, sleep during much of the day, and at times he would postpone sleep, remaining awake for thirty-six hours or more, until tension and exhaustion overcame him. Yet many people who met Mao came away deeply impressed by his intellectual reach, originality, style of power-within-simplicity, kindness toward low-level staff members, and the aura of respect that surrounded him at the top of Chinese politics. It would seem difficult to reconcile these two disparate views of Mao. But in a fundamental sense there was no brick wall between Mao the person and Mao the leader. This biography attempts to provide a comprehensive account of this powerful and polarizing historical figure.

*A Superpower Transformed* Daniel J. Sargent, 2015 Geopolitics and globalization collided in the 1970s, and their collision produced difficult challenges for the makers of American foreign policy. *A Superpower Transformed* explains how policymakers across three administrations worked to manage complex international changes in a tumultuous era, and it explores the legacies of their efforts to accommodate American power to new forces stirring in world affairs.

**America's Cold War** Campbell Craig, Fredrik Logevall, 2012-03-05 In a brilliant new interpretation, Campbell Craig and Fredrik Logevall reexamine the successes and failures of America's Cold War. The United States dealt effectively with the threats of Soviet predominance in Europe and of nuclear war in the early years of the conflict. But by engineering this policy, American leaders successfully paved the way for domestic actors and institutions with a vested interest in the struggle's continuation. Long after the USSR had been effectively contained, Washington continued to wage a virulent Cold War that entailed a massive arms buildup, wars in Korea and Vietnam, the support of repressive regimes and counterinsurgencies, and a pronounced militarization of American political culture.

**Empire of the Air** Jenifer Van Vleck, 2013-11-01 Jenifer Van Vleck's fascinating history reveals the central role commercial aviation played in the United States' ascent to global preeminence in the twentieth century. As U.S. military and economic influence grew, the federal government partnered with the aviation industry to deliver American power across the

globe and to sell the idea of the American Century to the public at home and abroad. The airplane promised to extend the frontiers of the United States to infinity, as Pan American World Airways president Juan Trippe said. As it accelerated the global circulation of U.S. capital, consumer goods, technologies, weapons, popular culture, and expertise, few places remained distant from Wall Street and Washington. Aviation promised to secure a new type of empire—an empire of the air instead of the land, which emphasized access to markets rather than the conquest of territory and made the entire world America's sphere of influence. By the late 1960s, however, foreign airlines and governments were challenging America's control of global airways, and the domestic aviation industry hit turbulent times. Just as the history of commercial aviation helps to explain the ascendance of American power, its subsequent challenges reflect the limits and contradictions of the American Century.

Beyond Sputnik and the Space Race Hugh R. Slotten, 2022-02-08 A fascinating account of how the United States established the first global satellite communications system to project geopolitical leadership during the Cold War. On July 20, 1969, the world watched, spellbound, as NASA astronaut Neil Armstrong stepped off the Apollo 11 lunar module to walk on the moon. NASA estimated that 20 percent of the planet's population—nearly 650 million people—watched the moon landing footage, which was made possible by the first global satellite communications system, the International Telecommunications Satellite Organization, or Intelsat. In *Beyond Sputnik and the Space Race*, Hugh R. Slotten analyzes the efforts of US officials, especially during the Kennedy administration, to establish this satellite communication system and open it to all countries of the world. Locked in competition with the Soviet Union for both military superiority and international prestige, President John F. Kennedy overturned the Eisenhower administration's policy of treating satellite communications as simply an extension of traditionally regulated telecommunications. Instead of allowing private communications companies to set up separate systems that would likely primarily serve major developed regions, the new administration decided to take the lead in establishing a single world system. Explaining how the East-West Cold War conflict became increasingly influenced by North-South tensions during this period, Slotten highlights the growing importance of non-aligned countries in Asia, Latin America, and Africa. He also underscores the importance of a political economy of total Cold War in which many crucial aspects of US society became tied to imperatives of national security and geopolitical prestige. Drawing on detailed archival records to examine the full range of decisionmakers involved in the Intelsat system, *Beyond Sputnik and the Space Race* spotlights mid- and lower-level agency staff usually ignored by historians. One of the few works to analyze the establishment of a major global infrastructure project, this book provides an outstanding analytical overview of the history of global electronic communications from the mid-nineteenth century to the present.

**The Cold War** Priscilla Roberts, 2018-12-07 This detailed two-volume set tells the story of the Cold War, the dominant international event of the second half of the 20th century, through a diverse selection of primary source documents. One of

the most extensive to date, this set of primary source documents studies the Cold War comprehensively from its beginning, with the emergence of the world's first communist government in Russia in late 1917, to its end, in 1991. All of the key events, including the Berlin Blockade, the Korean War, the Cuban Missile Crisis, the Vietnam War, and the nuclear arms race, are discussed in detail. The primary sources provide insight into the thinking of all participants, drawing on Western, Soviet, Asian, and Latin American perspectives. In *The Cold War: Interpreting Conflict through Primary Documents* primary documents are organized chronologically, allowing readers to appreciate the ramifications of the Cold War within a clear time frame. Extensive interpretive commentary provides in-depth background and context for each document. This work is an indispensable reference for all readers seeking to become deeply knowledgeable about the Cold War.

A Companion to World History Douglas Northrop, 2014-12-15 A COMPANION TO WORLD HISTORY This new volume offers insightful reflections by both leading and emerging world historians on approaches, methodologies, arguments, and pedagogies of a sub-discipline that has continued to be in flux as well as in need of defining itself as a relevant alternative to the traditional national, regional, or chronological fields of inquiry. Choice The focus...on the practicalities of how to do world history probably gives it its edge. Its thirty-three chapters are grouped into sections that address how to set up research projects in world history, how to teach it, how to get jobs in it, how to frame it, and how it is done in various parts of the globe. It is an actual handbook, in other words, as opposed to a sample of exemplary work. English Historical Review A Companion to World History offers a comprehensive overview of the variety of approaches and practices utilized in the field of world and global history. This state-of-the-art collection of more than 30 insightful essays – including contributions from an international cast of leading world historians and emerging scholars in the field – identifies continuing areas of contention, disagreement, and divergence, while pointing out fruitful directions for further discussion and research. Themes and topics explored include the lineages and trajectories of world history, key ideas and methods employed by world historians, the teaching of world history and how it draws upon and challenges traditional approaches, and global approaches to writing world history. By considering these interwoven issues of scholarship and pedagogy from a transnational, interregional, and world/global scale, fresh insights are gained and new challenges posed. With its rich compendium of diverse viewpoints, A Companion to World History is an essential resource for the study of the world's past.

**Mirrors of Greatness** David Reynolds, 2024-01-23 A new biography of Winston Churchill, revealing how his relationships with the other great figures of his age shaped his own triumphs and failures as a leader Winston Churchill remains one of the most revered figures of the twentieth century, his name a byword for courageous leadership. But the Churchill we know today is a mixture of history and myth, authored by the man himself. In *Mirrors of Greatness*, prizewinning historian David Reynolds reevaluates Churchill's life by viewing it through the eyes of his allies and adversaries, even his own family, revealing Churchill's lifelong struggle to overcome his political failures and his evolving grasp of what "greatness" truly

entailed. Through his dealings with Adolf Hitler and Neville Chamberlain, we follow Churchill's triumphant campaign against Nazi Germany. But we also see a Churchill whose misjudgments of allies and rivals like Roosevelt, Stalin, Gandhi, and Clement Attlee blinded him to the British Empire's waning dominance on the world stage and to the rising popularity of a postimperial, socialist vision of Great Britain at home. *Magisterial and incisive, Mirrors of Greatness* affords Churchill his due as a figure of world-historical importance and deepens our understanding of his legend by uncovering the ways his greatest contemporaries helped make him the man he was, for good and for ill.

**The Cold War [5 volumes]** Spencer C. Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War, from its ignition in the ashes of World War II, through the Berlin Wall and the Cuban Missile Crisis, to the collapse of the Soviet Union in 1991. The Cold War superpower face-off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today. This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world-changing event, including wars, new military technologies, diplomatic initiatives, espionage activities, important individuals and organizations, economic developments, societal and cultural events, and more. This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict. The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War, which are followed by some 1,500 entries on key individuals, wars, battles, weapons systems, diplomacy, politics, economics, and art and culture. Each entry has cross-references and a list of books for further reading. The text includes more than 100 key primary source documents, a detailed chronology, a glossary, and a selective bibliography. Numerous illustrations and maps are inset throughout to provide additional context to the material.

**Allies Apart** A. Scott, 2011-10-26 To date, the Heath-Nixon years have been widely portrayed as marking a low-point in the history of Anglo-American relations - even the end of the 'special relationship'; using a wealth of archival material on both sides of the Atlantic, and examining a range of global developments, *Allies Apart* offers a fresh interpretation of this pivotal period.

**American Dreams** H. W. Brands, 2011-05-31 From bestselling historian H. W. Brands, an incisive chronicle of the events and trends that guided-and sometimes misguided-our nation from the A-bomb to the iPhone. For a brief, bright moment in 1945, America stood at its apex, looking back on victory not only against the Axis powers but against the Great Depression, and looking ahead to seemingly limitless power and promise. What we've done with that power and promise over the past six decades is a vitally important and fascinating topic that has rarely been tackled in one volume, and never by a historian of H. W. Brands's stature. As *American Dreams* opens, Brands shows us a country dramatically different from our own-more unequal in social terms but more equal economically, more religious and rural but also more liberal and more wholeheartedly

engaged with the rest of the world. As he traces the changes we have gone through as a nation, he reveals the great themes and dreams that have driven America-the rising focus on individual rights and pleasures, the growing distance between our global goals and those of the rest of the world, and the inexorable dissolution of a shared sense of what it means to be American. In Brands's adroit hands, these trends unfold through a character-driven narrative that sheds brilliant light on the obvious highs and lows-from Watergate to the Berlin Wall, from Apollo 11 to 9/11, from My Lai to shock and awe. But he also chronicles the surprising impact of less celebrated events and trends. Through his eyes, we realize the sweeping significance of the immigration reforms of the 1960s, which gradually transformed American society. We come to grasp the vast impact of abandoning the gold standard in 1971, which enabled both globalization and the current financial crisis. We ponder the unnerving results of CNN's debut in 1979, which sped up the news cycle and permanently changed our foreign policy by putting its effects live on our TV screens. Blending political and cultural history with his keen sense of the spirit of the times, Brands captures the national experience through the last six decades and reveals the still-unfolding legacy of dreams born out of a global cataclysm.

**The United States and Europe in the Twentieth Century** David Ryan, 2016-02-17 The relationship between the US and Europe in the 20th century is one of the key considerations in any understanding of international relations/international history during this period. David Ryan first sets the context by looking at the trends and traditions of America's foreign relations in the 19th century, and then considers the changing nature of America's vision of Europe from 1900 to the present. The book examines America's response to and involvement in the two World Wars, including the structure of international power after the First World War and American reaction to the rise of Nazi Germany. American/European relations during the Cold War (1945-1970) are discussed, and Ryan considers the contentious debate that America was trying to establish an empire by invitation. Finally, the book looks at the ever-increasing unification of Europe and how this has affected America's role and influence.

*History in Practice 2nd edition* Ludmilla Jordanova, 2016-07-28 History in Practice explores the discipline's breadth, its complexities and the tasks it takes on. This study by one of the liveliest and most acute practitioners in the field demystifies what historians do. It looks at history as an academic discipline but also engages with the use of historical ideas in the wider world. Historical work has public consequences and draws considerable energy from contemporary preoccupations. For this new edition of her respected and widely used book, Ludmilla Jordanova has revised the text and added a new chapter that takes into account recent world events. She discusses the role of the internet, globalisation, world history and the current enthusiasm for military history. This book is essential reading for all students needing an understanding of history as a discipline.

### One World Divisible A Global History Since 1945 Introduction

In the digital age, access to information has become easier than ever before. The ability to download One World Divisible A Global History Since 1945 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download One World Divisible A Global

History Since 1945 has opened up a world of possibilities. Downloading One World Divisible A Global History Since 1945 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading One World Divisible A Global History Since 1945 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download One World Divisible A Global History Since

1945. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading One World Divisible A Global History Since 1945. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading One World Divisible A Global History Since 1945, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit

vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download One World Divisible A Global History Since 1945 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About One World Divisible A**

## Global History Since 1945 Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more

immersive learning experience. One World Divisible A Global History Since 1945 is one of the best book in our library for free trial. We provide copy of One World Divisible A Global History Since 1945 in digital format, so the resources that you find are reliable. There are also many Ebooks of related with One World Divisible A Global History Since 1945. Where to download One World Divisible A Global History Since 1945 online for free? Are you looking for One World Divisible A Global History Since 1945 PDF? This is definitely going to save you time and cash in something you should think about.
